nem both made cuthusiastic acceches in favor of statehood.

Actious incthoods of getting at the business in hand were discussed and a committee of one from each county was appointed to consider three separate insts of committees on various stip cas which it is proposed to incorporate in the constitution. These lists were attainted respectively by W. 6. Hazdaho and B. B. Retdery, of Bernallilo county and G. W. Pratchard of San Miguel counts.

All of the counties in New Mexico are represented everyl Taos. The convention is about counts and the continuous presentative body. The sentiment appears to be in favor of a constitution votaing the first propersity udeas of the age.

Late this evening the committee reported in tevor of cleven standing committees to be apputted by the chair, on the subjects to be embraced in the constitution.

go, of salmon for shipment to England. When the steamer was leaving Lodner's landingry in Fraser, owing to a strong current, two men in the wincelhouse had some difficulty in managing the wheel. Captain John Irving, manager of time C.P. N. Co, went to the men's assistance, and caught hold of the wheel. The two men let go their hold, when the wheel flew round and dashed Captain Irving to the floor with such violence as to hadly bruise and tear his skin. The man was attended to by a dector on board and brought to Victoria by the steamer, when he was conveyed to his home. The captain's injuries, while not sections, will confine him to his house for some time. He remained in the wheel house from the time of the accident till the steamer reached Victoria.

calors Preparing for Brisk Business During the Fall-Building Parmits Issued Since Jazmary 1 Aggregate \$1,581,682.

August was the quietast month of the year in s real estate market, the volume of business owing a decided falling off as compared with y preceding month. The full was expected, so any preceding menth. The lull was expected, so many people being out of the city whiling away the hot specii in the mountains and at the seashone. Then barvesting was at its hight in the easily part of the mouth and that had considerable to do with the culliness. The people are beginning to flock home, and the reopening of the public schools in a few days will bring menty all the sojourners back to the city. [Real estate dealers expect a brisk business during the fall months.

months.

All things considered there is no ground for complaint. The market maintains its healthy tone and values continue stiff. The principal inquiry is for outside property. The volume of business for the month was nearly as large as that of any month of last year, the sales amounting to \$700.000.

o \$700,000. e warm weather did not affect the building. Work was pushed on all buildings under and good progress was made. During the th building permits aggregating \$15,443 were d, making the total for the year to date, tree.

A Prediction That the People Will Vote for

Him.

VANCOUVER, Sept. J. 1889.

To THE EDITOR OF THE ORDONAN:

When a man, attacks another politically, he should be manly comphibility and his name. Judge Dennison's friends think they know who the cowardly "copubleans" are. They doubtless belong to the little "rings" in Vancouver and pretend to speak for the leparty—but the people—as secon through their gogeles. Fut there is no use talking, the people will not have a legal abysing to sit in judgment over them. Mark it well; the sealing on or superior judge, and the returns on election day will prove it.

To comman of any old-time republican for being caught, in a pessing profiblion craze, comes with goor grace, from joan who descried the republican party to islow the candidacy of

What the Farmers Are Cotting for Their Wheat-"What kind of a price are the farmers getting

for their wheat in your section?" asked a reporte of a buyer from the Palouse country yeaterday. "They are not gerting as much as they would like," was the reply, "but, notwithstanding their dissatisfaction with research prices, in the section where I reside, they are getting 7½ couls more than the market at current charder rates in utilities." "How do you account for this?" "Well, owing to strife between local buyers, farmers around where I live are getting 64 couts perbaball! Purchases are being made all over the Palouse district on a basis of 62 couts a basis, which is 5½ couts more than it is worth. In the Walls Walls at later they are getting 3½ couts which is 5½ couts more than it is worth. "How and their wheat is worth." "How and their wheat is worth."

Some other useful trade.

CASE OF THESPASS.

Vesterday George H. Smith and his wife, Sarah Smith, of Cole's addition, was arraigned before Justice Mayo on a charge of treepast, the complaining witnesses being a Mr. Hutchins and his wife. It was a singular case. Several months ago Butching, rented a bouse of Mrs. Smith in Cole's addition, who, at that time, was a widow. The rent was paid up to the sit is September, about a month ago she married George Smith, calt of the mountains. Before goirg away, she left at runk in the house. She came back about two weeks ago alone. She went direct into the house and endeavored to oust the H it ichins family. In this she did not succeed. Ber husband came here shortly after, and, it was fallened, began a course of mistreatment of the Hutchins family with the purpose of compelling there to leave the premises. As Hutchins had paid his rent to September 8, he would not be thrown out before that time at least, and he filed a complaint of the strength of the seconducted by Mr. McCoy, attempted to show that Mrs. Smith had reserved certain rights. The trial was before a jury of siz, who brought in a verdict of guilty of trespass. As An e of \$15 was imposed on each of defendance, Mrs. Ruith was highly indignant, and declared it was imposable to get justice in East Fortland.

A COLLISION. Yesterday morning a street car collided with a ragon on Fifth between K and L across, smashwagon on frith between k and L stress, smassing the car windows and throwing the car from the track. Two passengers standing on the rear platform were knocked off and one unterseverely het. The team was coming out of Lyon's stable from a side patterne is use as the car came along and got in fronked it.

THE SANTIAM MINES,

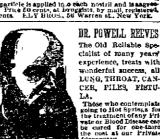

Nearly every miner who comes from the Santiam miner is lord in his praise of the mines, where the prospects are pronounced unsurpassed and equal to the mines of Montana and Idaho. The Albany mine is now down nearly fifty-five feet and expect to strike a rich ledge at seventy-five or eighly feet, when matters will boom. There is a hig luture for the Santiam. W. F. Read returned from the mines and is quite enthyiastic over the outlook. An old mine has been retunneded deeper and an eight-foot ledge of gold and silver ore struck, most y of the former, of great richness. It is thought it will pan out \$180 to the ton, and already the company is fearful lest so much rock is secured that with the present facilities it will be impossible to bring it to market.—Capital Journal.

This corroborates Mr. Legh Harneit's ri-

port, published in The Oregonian a year ago last May, after he first investigated San tiam. The gentleman has always held the district to be the Cour d'Alene of Oregon.

Arkansas, over which region no rain occured during the week!

The seasonal rainfall continues in excess on the Atlantic coast from New England to Florida, and from the Missour valley southward to the west guif coast. Over the principal corn-producing islates, and over the central portion of the collon region, the seasonal rainfall generally exceeds 80 per cent. of the normal; but from Central Tennessee northward to Lower Michigan the seasonal rainfall ranges from 60 to 70 per cent. of the normal.

development of the crop has been retarded about two weeks by excessive rains in the carly part of the season. In Michigan cool nights and continued dryness were unlaworable for corn, potatogrand pastures. Over the greater portion of Kansas and the vestern half of Missouri the companyation, varieties of the production of the production and the contraction of the production and the production

Eastern Missouri the crop has been injureably drought.

Numerous reports from the corn belt indicate that this crop with be secure and saffrom frost by September 15. Reports from Kentucky and Tennessee state that ratings needed to meure the full development of the corn and tobacco crops.

The weather of the week was generally favorable in New England and the middle Atlantic states. Corn was improved, a though previous heavy rains have caused permanent injury to various crops, namely, in Pennsylvania, the tobacco crop will not meet expectations; in New York, bittle more than one-half the usual crop of hops is expected. Reports indicate that potatoes are still rotting in New England and Ponnyfivania; a fine crop of tobacco is reported in Connecticut, and in New Jersey all crops were improved, and the prospect for fruit a more promising.

LADY OF THE HOUSE — Do you still like our Charter Oak Stove as well as when we first got it. Mary?

SERVANT—Ob, every bit as well, Maram.

LADY OF THE HOUSE—I am expr ting a friend to take dinner with us next week, on purpose so show her how nice our stove cook everything, and I want you to have a nice dinner for us.

SERVANT—indeed I will, Maram. There's no trouble to cook nice with the stove. The wire Gausse Open Boors makes it so much easier than other stoves I have been used to, have bed much biscuits or cake, now.

LADY OF THE HOUSE—Why, how do you explain it?

BERVANT—Well, I don't have to yatch everything so close for fear it will born. You know how careful you have to be with a baked calaring it is a spit to bure on top before it a baked through. (The Charter Oak bakes it perfectly without any danger of burning. And there have no wind a turker, I don't have to kee's basing it every five minutes. It roasts had the term without it, and without drying it is like the tight ovens do. And you know how crisp the bleutts are without being hard and tough. You always praised my biscuits, but if it want't ter the wire gause oven door I know they wouldn't be near as nice. I true I'll never have to cook anywhere again where they haven't got a charter Oak Stove organge.
